### Profile

We, 'ADHIACON' established in 1988, design and manufactures the customer need based Pollution control systems both in Water and Air Pollution problems. We manufacture Water Treatment Systems including Softener, Iron remover, Demineraliser. ADHIACON's contribution in saving thousands of victims of arsenic poisoning from physical and social disability and finally slow death is highly appreciated in India and abroad.

Their turn key execution of Community Based Decentralised Self Sustained Rural Arsenic Safe Drinking Water Purification and Supply Projects in India and Bangladesh are not only Low Cost to the Self Help Group but also generating employment and income for the youths and spreading awareness towards conservation and thrifty use of this scarce natural resources water.

ADHIACON's design & execution of Effluent Treatment Plants keep objective of Environment Protection & industry friendliness ahead of profit maximization.

ADHIACON'S unquestionable contribution in protecting the environment and serving the poor and needy earned them appreciation from high reputes like President of People Republic of Bangladesh and blessings from Blessed Mother Teresa.
